

Stay At Home (song) by Josh Buxton featuring Coffee Ryan, Harmony Degreez and Shabby Axle.

Song lyrics (Translated into English)

(Intro)

Nanana

Coffee Ryan, Harmony Degreez, Josh Buxton and Shabby Axle

Mosh on the beat\*2 yeah yeah...

(Chorus)

I am gonna stay at home

Beautiful people, stay home

Everybody be in your homes

Our people please, stay in your home

Everybody stay in your home.

(Verse 1)

Me and you and the other\*2

Yeah... don't sit near any person

Keep a distance from one another

No one knows what the other is

Let's do whatever we are told before hand

Let's not joke about this

Wash your hands with soap or a sanitizer

Keep away from large crowds

Avoid shaking hands

Report suspected cases

Life is precious.

(Back to chorus)

(Verse 2)

Hmmm yeah yeah yeah

Let me tell you 'bout corona

Let me about it\*2

It is a serious disease that has gone viral and is spreading.

I beg you not to allow to be misinformed into making a mistake\*2

I tell you, my people of Masafu, Bumeeru, Lumiino, Namayingo wash your hands

Leave the ignorance, leave the pride, this new disease has no known cure

If you greet with your hands, you can get corona

If you sneeze openly in public you spread corona

Touching touching in your soft parts, you get corona

Folk, stay in your home, do the quarantine to prevent this corona.

(Back to chorus)

(Verse 3)

Don't move on a boda boda (motorbike transport) for now

If you are going anywhere please walk\*2

Take it serious my brother, sister, father, mother yeah yeah

If you greet with your hands, you can get corona

If you sneeze openly in public, you spread corona

Leave the ignorance, leave the pride, this new disease has no known cure.

(End)
